Salmon & Blueberry
Mini Puppy

Natura Low Grain Mini Puppy Food with Salmon & Blueberry

88% ANIMAL PROTEIN CONTENT

Low-grain dry food for puppies of small breeds, specially produced with salmon and blueberry content, containing all the vitamins and minerals they need for the development of puppies.

Natura small breed puppy food can be easily chewed with its small grains and offers balanced and complete nutrition with its unique ingredients. Ideal for lactating, pregnant mothers and newly weaned puppies. It helps to restore the vitamins, minerals and nutrient stores that mother dogs spend for their puppies. It supports the sensitive digestive systems of puppies during the transition period to dry food. Mother and puppies are prone to diseases, they need to be well fed. Natura Low Grain Mini Puppy Dog Food with Salmon & Blueberry provides all the necessary support and protects the immune and digestive systems. Antarctic Krill Omega 3 & 6 fatty acids in its formula are higher than many fish species, and it is a rich food source. It supports the skin and fur structure and keeps it away from problems such as hair loss and skin problems. It supports animal protein intake with its rich salmon content. Protects the skin and fur structure. It meets the physical and mental needs of puppies. It protects against infections with vitamin and mineral support. While the probiotics in its content support the digestive system, the minerals contribute to the skeletal and muscular system. It protects heart and liver health with antioxidant contents and offers a healthy and happy start to life.

Ingredients: Dehydrated Salmon Protein, Dehydrated Chicken Protein, Rice, Chicken Fat, Corn, Dehydrated Antarctic Krill (Euphausia Superba), Hydrolyzed Chicken Liver Protein, Whey Powder, Hydrolyzed Cane Sugar, Carob Flour, Brewer's Yeast, L-Carnitine, Blueberry, Xylo-Oligosaccharide, Fructo-Oligosaccharide, Rosemary (Rosmarinus Sp.), Turmeric (Curcuma Sp.), Grape (Vitis Sp.), Citrus (Citrus Sp.), Clove (Clove), (300 Ppm).

Vitamins: Vitamin A, Vitamin D, Vitamin E, Vitamin C, Vitamin B1 - B2 - B3 (Niacin) - B6 - B12 - B7 (Biotin) - B9 (Folic Acid), Vitamin K, Choline, Calcium Pantothenate.

Minerals: Calcium, Phosphorus, Sodium, Iodine, Zinc, Copper, Potassium Chloride, Iron, Selenium.

Analytical components: Crude Protein: 32% Crude Fat: 16% Crude Ash: 8% Crude Cellulose: 3.5%.

Nutritional Supplements: Vitamin A (E672): 18000 IU/kg, Vitamin D3(E671): 1500 IU/kg, Vitamin E (3A700): 150 mg/kg, Vitamin C (Stay C): 200 mg/kg.

living in the Antarctic region of the Southern Ocean; The world's only consumable krill type. Higher levels of fatty acids such as Omega 3 & 6 than most fish species. It is a rich source of nutrients. Its content supports the skin and fur structure. Thus, it significantly keeps away from problems such as hair loss or skin problems.

In addition to its antioxidant feature; It contains many different components, especially folate, potassium, vitC, vitE and vitK. It strengthens the immune system and accelerates recovery after illness. It has antibacterial and antiviral properties. It strengthens memory. It helps prevent high blood pressure, cholesterol, bone diseases, ulcers and many more. It also provides protection from diseases.

Xylo oligosaccharides (XOS) are super prebiotics. It feeds beneficial bacteria such as bifidobacteria and lactobacilli in the digestive tract. Selective multiplication of bifidobacteria inhibits harmful bacteria. Xylo-oligosaccharide supports the absorption of calcium, magnesium, iron, zinc and other minerals and creates a healthy intestinal environment with beneficial bacteria. It reduces digestive discomfort and bloating. It helps to reduce the negative fermentation that causes energy loss.

It provides learning and intelligence development. Supports muscle structure. It provides ease of function by participating in the structure of muscle fibers. In infections and injuries, it accelerates healing. It shortens the recovery period. It is a nutrient that plays an important role in the conversion of nutrients entering the body into energy.

It reduces the risk of infection and diarrhea. While reducing intestinal pests, it helps to increase the number of beneficial ones. It supports mineral absorption from the intestines. FOS increases overall gastrointestinal tract health by acting as a substrate for the microflora in the large intestine.

Natura Low Grain Kitten Starter Food with Chicken & Grape

94% ANIMAL PROTEIN CONTENT

Low-grain dry food that should be used as a starter food for kittens from the 1st to the 4th month, specially produced with chicken meat and grapes, and contains all the vitamins and minerals the kittens need for their development.

Natura kitten starter food, with its small grains, is easily chewable and offers balanced and complete nutrition with its unique ingredients. Ideal for lactating, pregnant mothers and newly weaned kittens. It helps to restore the vitamins, minerals and nutrient stores that mother cats spend for their kittens. Mother and kittens are prone to diseases, they need to be supported. Natura Low Grain Kitten Starter with Chicken & Grape protects the immune and digestive systems by providing all the necessary support with its rich content. It meets the physical and mental needs of kittens. Antarctic Krill Omega 3 & 6 fatty acids in its formula are higher than many fish species, and it is a rich food source. It supports the skin and fur structure and keeps it away from problems such as hair loss and skin problems. It supports animal protein intake with its rich chicken content. Contributes to the circulatory and immune system with the antioxidants it contains. Thanks to its vitamin and mineral support, it protects against infections and offers a healthy and happy start to life.

Ingredients: Dehydrated Chicken Protein (Chicken Min 26%), Chicken Oil, Rice, Corn, Whey Powder, Dried Antarctic Krill, (Euphausia Superba), Hydrolyzed Chicken Liver Protein, Hydrolyzed Sugar Cane Fiber, Brewer's Yeast, Egg Protein Powder, Yucca Schidigera, L-carnitine, Fructo-Oligosaccharide, Rosemary (Rosmarinus Sp.), Turmeric (Curcuma Sp), Grape (Vitis Sp), Citrus (Citrus Sp.), Clove (Clove), (300 Ppm).

Vitamins: Vitamin A, Vitamin D, Vitamin E, Vitamin C, Vitamin B1 - B2 - B3 (Niacin) - B6 - B12 - B7 (Biotin) - B9 (Folic Acid), Vitamin K, Choline, Calcium Pantothenate.

Minerals: Calcium, Phosphorus, Sodium, Iodine, Zinc, Copper, Potassium Chloride, Iron, Selenium.

Analytical components: Crude Protein: 38% Crude Fat: 18% Crude Ash: 8% Crude Cellulose: 2%.

Nutritional Supplements: Vitamin A (E672): 18000 IU/kg Vitamin D3(E671):1500 IU/kg Vitamin E (3A700):200 mg/kg Vitamin C (Stay C): 200 mg/kg Taurine: 1500 mg/kg

living in the Antarctic region of the Southern Ocean; The world's only consumable krill type. Higher levels of fatty acids such as Omega 3 & 6 than most fish species. It is a rich source of nutrients. Its content supports the skin and fur structure. Thus, it significantly keeps away from problems such as hair loss or skin problems.

It has antioxidant properties. In addition to affecting harmful compounds, it also helps to prevent their formation. It is supportive in the cardiovascular system. It plays a role in regulating communication between nervous system cells. Increases kidney and liver function. Thanks to its antioxidant feature, it ensures that harmful substances accumulated in the body are thrown out. It makes the body resistant to viruses.

Xylo oligosaccharides (XOS) are super prebiotics. It feeds beneficial bacteria such as bifidobacteria and lactobacilli in the digestive tract. Selective multiplication of bifidobacteria inhibits harmful bacteria. Xylo-oligosaccharide supports the absorption of calcium, magnesium, iron, zinc and other minerals and creates a healthy intestinal environment with beneficial bacteria. It reduces digestive discomfort and bloating. It helps to reduce the negative fermentation that causes energy loss.

It reduces the risk of infection and diarrhea. While reducing intestinal pests, it helps to increase the number of beneficial ones. It supports mineral absorption from the intestines. FOS increases overall gastrointestinal tract health by acting as a substrate for the microflora in the large intestine.

Clinically proven natural protection against cell aging. It is rich in water and fat soluble antioxidants. It significantly reduces the production of potentially toxic substances that contribute to cellular aging. It helps to reduce tissue deformation. By minimizing oxidative stress, it will offer your pet a healthier and happier life.

Natura Low Grain Adult Cat Food with Salmon & Blueberry

93% ANIMAL PROTEIN CONTENT

Low-grain dry food for adult cats, specially produced with salmon and blueberry content, containing all the vitamins and minerals cats need.

Natura adult cat food is easily digested. It offers balanced and complete nutrition with its unique ingredients. Ideal for adult cats. It helps cats to take vitamins, minerals and other nutrients correctly. Cats have sensitive digestive systems and are very fond of their taste buds. Natura Low Grain Adult Cat Food with Salmon & Blueberry offers a delicious and digestive system-supporting structure. Protecting adult cats before their health deteriorates increases both their well-being and provides them with a peaceful life. Antarctic Krill Omega 3 & 6 fatty acids in its formula are higher than many fish species, and it is a rich food source. It supports the skin and fur structure and keeps it away from problems such as hair loss and skin problems. It supports animal protein intake with its rich salmon content. Contributes to the circulatory and immune system with the antioxidants it contains. Thanks to its vitamin and mineral support, it protects against infections and offers the opportunity for a healthy and happy life.

Ingredients: Dehydrated Fish Protein, Dehydrated Chicken Protein, Rice, Corn, Chicken Oil, Dried Antarctic Krill (Euphausia Superba), Hydrolyzed Chicken Liver Protein, Hydrolyzed Sugar Cane Fiber, Carob Meal, Fish Oil, Brewer's Yeast, Blueberry, Yucca-Schidigera, Xylo-oligosaccharide, Fructo-Oligosaccharide, L-carnitine, Rosemary (Rosmarinus Sp.), Turmeric (Curcuma Sp.), Grape (Vitis Sp.), Citrus (Citrus Sp.), Clove (Clove), (300 Ppm).

Vitamins: Vitamin A, Vitamin D, Vitamin E, Vitamin C, Vitamin B1 - B2 - B3 (Niacin) - B6 - B12 - B7 (Biotin) - B9 (Folic Acid), Vitamin K, Choline, Calcium Pantothenate.

Minerals: Calcium, Phosphorus, Sodium, Iodine, Zinc, Copper, Potassium Chloride, Iron, Selenium.

Analytical components: Crude Protein: 35% Crude Fat: 16% Crude Ash: 8% Crude Cellulose: 2.5%.

Nutritional Supplements: Vitamin A (E672): 18000 IU/kg Vitamin D3(E671):1500 IU/kg Vitamin E (3A700):200 mg/kg Vitamin C (Stay C): 200 mg/kg Taurine: 1500 mg/kg

living in the Antarctic region of the Southern Ocean; The world's only consumable krill type. Higher levels of fatty acids such as Omega 3 & 6 than most fish species. It is a rich source of nutrients. Its content supports the skin and fur structure. Thus, it significantly keeps away from problems such as hair loss or skin problems.

It is a nutrient store rich in manganese, vitC and vitK. It is very low in calories. It has antioxidant properties. Free radicals, that is, unstable molecular compounds, damage cells and cause diseases such as aging and cancer, and its antioxidant property protects the body from these risks. It provides protection against diabetes and urinary system infections.

Xylo oligosaccharides (XOS) are super prebiotics. It feeds beneficial bacteria such as ifidobacteria and lactobacilli in the digestive tract. Selective multiplication of bifidobacteria inhibits harmful bacteria. Xylo-oligosaccharide supports the absorption of calcium, magnesium, iron, zinc and other minerals and creates a healthy intestinal environment with beneficial bacteria. It reduces digestive discomfort and bloating. It helps to reduce the negative fermentation that causes energy loss.

It provides learning and intelligence development. Supports muscle structure. It provides ease of function by participating in the structure of muscle fibers. In infections and injuries, it accelerates healing. It shortens the recovery period. It is a nutrient that plays an important role in the conversion of nutrients entering the body into energy.

Clinically proven natural protection against cell aging. It is rich in water and fat soluble antioxidants. It significantly reduces the production of potentially toxic substances that contribute to cellular aging. It helps to reduce tissue deformation. By minimizing oxidative stress, it will offer your pet a healthier and happier life.

Natura Low Grain Indoor Hairball Cat Food with Chicken & Blueberry

92% ANIMAL PROTEIN CONTENT

Low-grain dry food containing all the vitamins and minerals that cats need, specially produced with chicken meat and blueberry content, for adult cats living at home and consuming less energy.

Natura Indoor & Hairball is easily digested thanks to its formula specially developed for cats living at home. It offers balanced and complete nutrition with its unique ingredients. Ideal for domestic cats. It helps cats to take vitamins, minerals and other nutrients correctly. Domestic cats are prone to gain weight because they don't expend much energy. They also become prone to fatty liver problems caused by excessive weight gain. Natura Low Grain Indoor & Hairball Cat Food with Chicken & Blueberry offers a delicious and effective structure against weight control. Protecting the cats living in the house before their health deteriorates both increases their living well-being and provides them with a peaceful life. Antarctic Krill Omega 3 & 6 fatty acids in its formula are higher than many fish species, and it is a rich food source. It supports the skin and fur structure and keeps it away from problems such as hair loss and skin problems. It supports animal protein intake with its rich chicken content. Thanks to the antioxidants it contains, it contributes to the circulatory and immune system. It relaxes the digestive system by preventing lumps of hair. Thanks to its vitamin and mineral support, it protects against infections and offers the opportunity for a healthy and happy life.

Ingredients: Dehydrated Chicken Protein(Chicken Min 26%), Rice, Corn, Hydrolyzed Sugar Cane Fiber, Chicken Oil, Dried Antarctic Krill (Euphausia Superba), Hydrolyzed Chicken Liver Protein, Whey Powder, Brewer's Yeast, Psyllium Fiber (Mucilage Source) Yucca Schidigera-Quillaja, Blueberry, L-carnitine, Xylo-Oligosaccharide, Fructo-oligosaccharide, Rosemary (Rosmarinus Sp.) Turmeric (Curcuma Sp.), Grape (Vitis Sp.), Citrus (Citrus Sp.), Indian Cherry (Eugenia Sp.), Clove (Clove), (300 Ppm).

Vitamins: Vitamin A, Vitamin D, Vitamin E, Vitamin C, Vitamin B1 - B2 - B3 (Niacin) - B6 - B12 - B7 (Biotin) - B9 (Folic Acid), Vitamin K, Choline, Calcium Pantothenate.

Minerals: Calcium, Phosphorus, Sodium, Iodine, Zinc, Copper, Potassium Chloride, Iron, Selenium.

Analytical components: Crude Protein: 35% Crude Fat: 13% Crude Ash: 8% Crude Cellulose: 6%.

Nutritional Supplements: Vitamin A (E672): 18000 IU/kg Vitamin D3(E671):1500 IU/kg Vitamin E (3A700):200 mg/kg Vitamin C (Stay C): 200 mg/kg Taurine: 1500 mg/kg

living in the Antarctic region of the Southern Ocean; The world's only consumable krill type. Higher levels of fatty acids such as Omega 3 & 6 than most fish species. It is a rich source of nutrients. Its content supports the skin and fur structure. Thus, it significantly keeps away from problems such as hair loss or skin problems.

It is a nutrient store rich in manganese, vitC and vitK. It is very low in calories. It has antioxidant properties. Free radicals, that is, unstable molecular compounds, damage cells and cause diseases such as aging and cancer, and its antioxidant property protects the body from these risks. It provides protection against diabetes and urinary system infections.

Xylo oligosaccharides (XOS) are super prebiotics. It feeds beneficial bacteria such as bifidobacteria and lactobacilli in the digestive tract. Selective multiplication of bifidobacteria inhibits harmful bacteria. Xylo-oligosaccharide supports the absorption of calcium, magnesium, iron, zinc and other minerals and creates a healthy intestinal environment with beneficial bacteria. It reduces digestive discomfort and bloating. It helps to reduce the negative fermentation that causes energy loss.

It provides learning and intelligence development. Supports muscle structure. It provides ease of function by participating in the structure of muscle fibers. In infections and injuries, it accelerates healing. It shortens the recovery period. It is a nutrient that plays an important role in the conversion of nutrients entering the body into energy.

Clinically proven natural protection against cell aging. It is rich in water and fat soluble antioxidants. It significantly reduces the production of potentially toxic substances that contribute to cellular aging. It helps to reduce tissue deformation. By minimizing oxidative stress, it will offer your pet a healthier and happier life.

TAURINE

Natura Low Grain Sterilised Cat Food with Salmon, Anchovy & Cranberry

92% ANIMAL PROTEIN CONTENT

A low-grain dry food specially formulated for sterilised cats, containing all the vitamins and minerals that cats need, specially produced with the content of salmon, anchovy and cranberry.

Natura sterilised adult cat food is easily digested. It offers balanced and complete nutrition with its unique ingredients. Ideal for neutered cats. It helps cats to take vitamins, minerals and other nutrients correctly. Sterilised cats are prone to weight gain, urinary tract infections and stone formation with excessive and unbalanced lubrication. Natura Low Grain Sterilised Cat Food with Salmon Anchovy & Cranberry offers both delicious and excretory system supporting structure. Protecting neutered cats before their health deteriorates increases both their well-being and provides them with a peaceful life. Antarctic Krill Omega 3 & 6 fatty acids in its formula are higher than many fish species, and it is a rich food source. It supports the skin and fur structure and keeps it away from problems such as hair loss and skin problems. It supports animal protein intake with its rich salmon and anchovy content. Thanks to the antioxidants it contains, it contributes to the circulatory and immune system. It protects against infections with its vitamin and mineral support and offers the opportunity for a healthy and happy life.

Ingredients: Dehydrated Salmon Protein, Dehydrated Chicken Protein, Rice, Corn, Dehydrated Anchovy Protein, Hydrolyzed Sugar Cane Fiber, Chicken Oil, Dried Antarctic Krill (Euphausia Superba), Hydrolyzed Chicken Liver Protein, Carob Meal, Brewer's Yeast, DL-Methionine, Psyllium Fiber (Mucilage Source), Cranberry, Yucca-Schidigera, Xylo-Oligosaccharide, Fructo-Oligosaccharide, L-Carnitine, Rosemary (Rosmarinus Sp.), Turmeric (Curcuma Sp.), Grape (Vitis Sp.), Citrus (Citrus Sp.), Clove (Clove), (300 Ppm).

Vitamins: Vitamin A, Vitamin D, Vitamin E, Vitamin C, Vitamin B1 - B2 - B3 (Niacin) - B6 - B12 - B7 (Biotin) - B9 (Folic Acid), Vitamin K, Choline, Calcium Pantothenate.

Minerals: Calcium, Phosphorus, Sodium, Iodine, Zinc, Copper, Potassium Chloride, Iron, Selenium.

Analytical components: Crude Protein: 35% Crude Fat: 12% Crude Ash: 8% Crude Cellulose: 7%.

Nutritional Supplements: Vitamin A [E672]: 18000 IU/kg Vitamin D3[E671]:1500 IU/kg Vitamin E [3A700]:200 mg/kg Vitamin C (Stay C): 200 mg/kg Taurine: 1500 mg/kg

Pet Care

Bentonite Cat Litter

Natura Natural Sensitivity Unscented Bentonite Cat Litter

Experience the ultimate in cat litter with our Natura Natural Sensitivity Unscented Bentonite Cat Litter.

Made from 100% natural bentonite and activated carbon granules, this odorless cat litter provides exceptional clumping and odor-trapping capabilities. Our special formula is designed with sensitive cats in mind, ensuring their comfort and well-being. Unlike other litters, our product is free from harmful chemicals that could compromise your health and that of your beloved feline companion. Simply place the litterbox in a convenient location where your cat can easily access it and feel at ease.

Fill the litterbox with a 7-8cm layer of our cat litter, and clean out clumps and solid waste daily using a suitable scoop. As the level decreases, replenish the litter to maintain optimal performance. Remember to wash your hands with soap after handling the litter. The frequency of litter changes depends on the number of cats and their usage patterns.

Natura Scented Slim Aloe Vera Scented Bentonite Cat Litter

Indulge your cat with the exquisite Natura Scented Slim Aloe Vera Scented Bentonite Cat Litter.

Our fine-grain cat litter is ultra-clumping and highly effective in retaining odors. Crafted with 100% natural bentonite and activated carbon, this gray-colored litter features a unique fine-grain formula with a pleasant Aloe Vera scent. We prioritize the use of natural raw materials, ensuring that our litter is free from any harmful chemicals that could compromise the health of you and your cat.

Just like our other products, it's important to place the litterbox in a location that is easily accessible and comfortable for your cat. Pour a 7-8cm layer of litter into the box, and clean out clumps and solid waste daily with a suitable scoop. Keep the litter level consistent by adding fresh litter as needed. Remember to wash your hands with soap after coming into contact with the litter. The frequency of litter changes depends on the number of cats and their usage patterns.

Natura Less Track Spring Breeze Scented Bentonite Cat Litter

Introducing the Natura Less Track Spring Breeze Scented Bentonite Cat Litter - the perfect solution for cat owners seeking a clean and odor-free environment.

This cat litter contains 100% natural bentonite and activated carbon, effectively trapping odors while emitting a refreshing spring breeze fragrance. Say goodbye to litter scattered around your home, as our innovative formula minimizes tracking and sticking to your cat's paws. Our litter is made from natural raw materials, ensuring it is free from any harmful chemicals that could jeopardize the health of you and your cat.

As with all our products, place the litterbox in a location that your cat can easily access and feel comfortable in. Fill the litterbox with a 7-8cm layer of our litter, and remove clumps and solid waste daily using a suitable scoop. Maintain the litter level by adding fresh litter when necessary. After handling the litter, remember to wash your hands thoroughly with soap. The frequency of litter changes depends on the number of cats and their usage patterns.

Natura Air Net Harness

Introducing the Natura Air Net Harness, designed specifically for small and medium breed dogs. Our waist collars are made from a special Air Net fabric, known for its breathable structure, softness, lightness, and durability. Unlike other materials, our Air Net fabric features pores that prevent an increase in your dog's body temperature. Safety is paramount, which is why our harnesses are equipped with three different lock systems, providing peace of mind during walks. The one-handed locking system ensures easy and convenient use. For added safety, our harnesses feature reflective strips on both sides, enhancing visibility in low-light conditions. The ergonomic design wraps comfortably around your dog's chest, making it suitable for active and sporty dogs, allowing for safe and enjoyable outings. Choose the Natura Air Net Harness for a combination of comfort, style, and functionality.

Natura
Healthy Food

Supplements

Natura VitaKitten Paste 100ml

Natura VitaKitten Paste is a feed premix containing vitamins, taurine, dicalcium phosphate and MOS that support the healthy development of your cat, prepared to meet the vitamins and amino acids needed by kittens.

It offers your kitten a balanced combination of vitamins. In cats, taurine cannot be synthesized in the body and must be supplemented from the outside. In taurine deficiency, many metabolic disorders such as impaired heart functions and eye health can be seen. In kittens, slowing growth due to the affected skeletal system is one of the symptoms that can be seen due to taurine deficiency. The calcium and phosphate it contains are found in the structure of bones and teeth. There is an optimum ratio of calcium phosphate for cats. If calcium and phosphate needs are not met sufficiently and this balance is disturbed, it can lead to skeletal problems that cannot be corrected for a lifetime, especially in offspring that are in the rapid growth period. It also contributes to the balanced bacterial population in the intestines thanks to the mannan-oligosaccharide (MOS) it contains. They are also effective against harmful bacteria living in the intestine. By preventing the attachment of pathogenic bacteria to the intestinal mucosa, they prevent their development. Thus, it supports the digestive system.

Usage; For kittens, 0.5 grams (about 1 cm) per day is added to their food or given directly.

Natura MaltDigest Paste 25ml - 100ml

Natura MaltDigest Paste is a malt paste prepared to prevent and eliminate hairball problem in every period of cats' lives.

It has been specially formulated to prevent and remove hairballs in cats. While cats lick their bodies for cleaning purposes, they swallow some hairs, and these feathers turn into hairballs in some animals over time, causing blockages in the gastrointestinal system partially or completely. If the hairball passes the stomach phase and moves to the intestines, it can calcify and block the intestines. This condition is common in long-haired cats. The problem of intractable hairballs in the stomach phase is also common in short-haired cats that lick themselves a lot. The best way to protect is to use Natura MaltDigest Paste, which both prevents constipation and provides gentle transport of hairballs that have not yet formed into balls from the stomach and intestines to be expelled through the faeces. The content of MOS (mannan-oligosaccharide), with its prebiotic effect, helps to increase beneficial bacteria in the intestine and decrease harmful bacteria, so that your friend can benefit from the food at the maximum rate and plays an important role in strengthening immunity.

Usage; In cats, 1 gram (approximately 2 cm) per day is added to their food or given directly.

Natura CattyLysine 0,5 gr

Natura CattyLysine chewable tablets are a feed premix containing L-Lysine, specially formulated to support the immune system to ensure that cats have the strong immune system they need in every period of their lives.

Cats with compromised immune systems, such as kittens and older cats, are generally more prone to respiratory infections; however, healthy cats also experience respiratory diseases. Adequate intake of Lysine helps support the immune system of kittens and adult cats. In addition to supporting the eye and respiratory system, it has an important role in preventing common cat health problems such as sneezing, runny nose and watery eyes. Lysine is recognized as the most effective antiviral agent against Herpes virus. Herpes virus shows more serious clinical symptoms, especially in the eye. Clinical studies have shown that Lysine supplementation reduces the severity and duration of infection in cats.

Usage; Adult cats (over 6 months)-2-4 tablets a day • Kittens- (under 6 months) -2 tablets per day can be given directly or added to their food.

Natura MilkyKit 200 gr

Natura MilkyKit is a nutritional supplement for your kitten prepared with a balanced formulation of protein, vitamins, minerals and oils, modeled on natural breast milk.

Natura MilkyKit, which meets all the needs of puppies separated from their mothers early, contains all the necessary vitamins and minerals and helps healthy muscle and bone development. Due to its rich content, it is also used in the feeding of mothers during pregnancy and lactation, elderly and weak adults. With its reduced Lactose rate, Natura MilkyKit offers easy digestion and a healthy diet for your cat. Its taurine is an essential amino acid for cats. It is not synthesized in the body and must be taken with food. It is necessary for vision and reproductive functions. It provides protection against free radicals, which makes taurine an important antioxidant in the fight against aging. In addition, the L-carnitine contained in it is used for the metabolism of fatty acids in the body and for the conversion of energy into cells. Reducing the ratio of fat in the body, losing weight, enables the conversion of fat between unproductive muscle mass into energy.

Usage; After choosing the appropriate dose from the table on the package, it is mixed with a small amount of boiling water. While mixing continues, the remaining amount of product and water is added slowly to reach the appropriate dose. Every meal is prepared fresh.

Natura VitaPuppy Paste 100 ml

Natura VitaPuppy Paste is a feed premix in the form of a paste containing vitamins and amino acids, specially formulated to support the healthy development of puppies, strengthen their immune system and make them more resistant to diseases.

The L-Carnitine in its content helps your puppy's muscles to develop healthy and allows the body to burn fat effectively. Therefore, carnitine is very useful and effective during physical exertion, especially in long-term use. Serious heart diseases are seen in some dog breeds (Boxer, Doberman, Cocker Spaniel, etc.). These diseases are often related to inadequate production of carnitine by the body. Dicalcium phosphate in its content especially supports the bone structure. Calcium and phosphate are found in the structure of bones and teeth. It has an optimum ratio of calcium phosphate for cats and dogs. If calcium and phosphate needs are not met sufficiently and this balance is disturbed, it can lead to skeletal problems that cannot be corrected for a lifetime, especially in offspring that are in the rapid growth period. In addition, the Mannan-oligosaccharide (MOS) it contains contributes to the balanced bacterial population in the intestines. It is also effective against harmful bacteria living in the intestine. It prevents the growth of pathogenic bacteria by preventing them from binding to the intestinal mucosa and thus supports the digestive system.

Usage; For each 1 kg live weight of puppies, 0.5 grams (approximately 1 cm) per day is added to their food or given directly.

Natura ImmunePlus Dog Chewable Tablets are a nutritional supplement designed to support the strong immune system that dogs need in every period of their lives. It has been specially developed for dogs to support the immune system and regulate liver functions with a detox effect. Our pet friend is exposed to many toxins in antibiotic and chemotherapy treatments, after internal and external parasite treatment. It is used to remove these toxins stored in the liver from the body thanks to the Silymarin it contains. Its content of Milk Thistle and Turmeric removes toxins from the liver and kidneys and regulates their functions. It supports liver regeneration, helps to support the function of damaged kidneys during diseases such as diabetes, and its antioxidant properties can be useful as an anti-cancer support. Natura ImmunePlus Dog contains Milk Thistle extract, which contains 80% Silymarin active ingredient in its content. The active ingredient of the turmeric extract used is called Curcumin. Absorption of curcumin in the body is poor. For this reason, Natura ImmunePlus Dog content uses water-soluble Curcumin produced with special technology. In this way, it increases the absorption of the product in the body to the maximum level and increases the bioavailability.

Usage; Every 10 kg. It is calculated as 1 tablet per live weight. It is added to their food or given directly.

Natura D-CalPet Tabs 1,5 gr

Natura D-CalPet Tabs chewable tablets are nutritional supplements prepared to meet the Calcium that our pet friends need in every period of their lives.

Calcium is the most abundant mineral in the body of living things. In addition to forming the bone and tooth structure, it has important roles such as blood clotting, structuring joints, regulating heartbeat and repairing the nervous system. For all these reasons, it is extremely vital to meet the daily calcium needs of our pet friends. Calcium needs of both the mother and the offspring increase significantly, especially during pregnancy and lactation. At the same time, fast growing large and giant breeds continue to develop until the age of 24 months. In this critical period, if their calcium needs are not met sufficiently, they face skeletal problems that cannot be corrected for a lifetime. Calcium absorption may be reduced for various reasons. Especially Vitamin D deficiency is the most important reason for the decrease in calcium absorption. Let your pet friend spend plenty of time outdoors in sunny weather. Natura D-CalPet Tabs tablets contain sufficient Vitamin D as well as calcium and phosphorus.

Usage; Half a tablet (0.75 g) per day for cats and puppies, 15 kg. 1 tablet (1.5 gr.) per day for adult dogs over 30 kg. 2 tablets (3 grams) per day are used in adult dogs and above. The tablet can be given directly or it can be crushed into their food and added into dry or canned food.

Natura Foam Shampoo Aloe Vera

Natura Foam Shampoo - Aloe Vera is a specially prepared fur and skin care product in the form of foam, intended for cleaning the hair and body of our pet friends without washing them with water in every period of their lives.

Aloe vera extract repairs and nourishes the skin in sensitive skinned cats and dogs. The carefully selected surfactants it contains moisturize the skin by protecting the oil layer and prevent it from drying. It removes bad odors. With regular use, it increases the defense power of the skin. It makes the fur soft and shiny. It is suitable for cats and dogs with all types of fur. It is used for general body cleaning. It is used for general cleaning of cats that are difficult to wash, especially in winter. Ideal for paw cleaning after daily walks in dogs.

Usage; Shake the bottle before use. Squeeze the base of the hair from the tail area against the direction of the hair growth, without making contact with the eyes. Gently massage the shampoo into the hairs, spread it all over the body with the help of a brush. Then, wipe the foams off with the help of a piece of cloth or towel.

Natura ShinySkin Care 100 ml

Natura ShinySkin Care is used to ensure that the skin and hair look healthy and bright in cats and dogs and to eliminate skin irritations caused by bites of external parasites such as fleas, ticks and lice.

It is an important monoterpenoid and an alcohol found in essential oils of various aromatic herbs such as geraniol, rose oil, citronella oil and palmarosa oil. Geraniol exhibits various biochemical and pharmacological properties. Studies have shown that Geraniol is effective as a plant-derived insect repellent, and its potential as an antimicrobial agent has been highlighted in several studies. In addition, the mint and clove oil it contains has fragrance and moisturizing properties. Natura ShinySkin care removes bad odor and moisturizes the skin.

Usage; The fur of cats and dogs is fluffed so that their skin is visible. Starting from a distance of 15cm from the tail, the spray is sprayed quickly by moving the spray, making sure that the entire body of the animal, including the legs and bottom, is covered until all of its feathers are wet. The hairs are brushed in the direction of growth. If necessary, it can be repeated after 15 days.

100ml

52428

Natura Catnip Spray 100 ml

Natura Catnip Spray is a spray specially prepared for the purpose of stimulating the instincts of cats and encouraging them to play by exciting.

It is a game spray for cats, containing the aromatic oils of Valerian Oil and Valerian Root. Cats inhale valerian oil and the aromatic oils in valerian root with special receptors in their noses. These receptors are connected to the brain and affect the cat's behavior. Its effect can vary between cats, but it often causes animals to be calm and happy. Natura Catnip Spray excites the vast majority of cats due to the scent of the herbs it contains and awakens their instincts for playing.

Usage; It can be squeezed into the cat's scratch bar and toys to encourage play. Shy cats can be bored with items in their living environment to keep them comfortable and help cats get to know each other smoothly. When traveling with the cat, it can be squeezed into the cat carrier to reduce the cat's anxiety and create a soothing situation. Generally, cats older than 6-9 months show interest. Its effect can vary between cats.

100ml

52430

Natura TrainTrue Spray 100 ml

Natura TrainTrue Spray is a specially prepared training product in the form of a spray for our pet friends to gain correct toilet habits.

Thanks to its scent, this spray, which allows puppies and young dogs to make their toilet to the area you specify, makes you forget unwanted habits. It is prepared for indoor and outdoor use. The duration of the training and the achievement of the exact desired result also depend on the breed and character of your dog. Although some puppies get used to it easily, some dogs may have difficulty learning from time to time. Thanks to the scent of Natura TrainTrue Spray, it helps you gain this habit. One of the important factors is to reward. When your dog urinates in the area you designate, be sure to reward it. In this way, you will complete the toilet training in a shorter time and ensure that your dog understands that he is acting correctly.

Usage; Before use, the bottle should be shaken. Place a toilet lapping pad in an area in the house that you want to be used for toileting. Make sure that this area is away from the food bowl and bed. Spray a little from a distance of about 15 cm from the designated area and let the dog sniff. Bring the product back to the point where you applied it and smell it, especially after eating, playing and sleeping. In cases where the effect of the spray wears off, spray again and repeat the application until your dog gains the toilet habit. Always reward your friend when he does his toilet to the area you want.

Natura Training Pads

Natura TrainingPads; training pad for dogs. It can be fixed to the floor with adhesive tapes or used in dog restrooms. Provides instant absorption to prevent odor and leakage. Thanks to the 4-adhesive tape system, it does not slip and gather. Its ultra-thin structure offers comfortable and easy use.

Usage; Lay the pad in the area where you want your dog to toilet in the house. Make sure that this area is away from the food bowl and bed. To make training easier, squeeze Natura TrainTrue Spray a little on the pad from a distance of about 15 cm and let your dog sniff. Bring your dog back on the pad, especially after eating, playing and sleeping. In cases where the effect of the spray wears off, spray again and repeat the application until your dog gains toilet habit. Be sure to reward your dog when he urinates in the area you want. For waste, please comply with local waste legislation.

Usage areas: Natura TrainingPads; It is especially suitable for indoor toilet training, when your dog cannot go out, for short stays in veterinary clinics and pet hotels, for sick and incontinent cats and dogs.

52880

Natura Matatabi Cat Toy

Matatabi plant (Actinidia Polygama) is a 100% natural plant that can be used as it grows in nature. It has a stimulating effect on cats. In cats, it causes 60-70% of the fun behaviors such as rubbing, rolling and jumping. It provides natural tooth cleaning by activating the chewing urge. Its effect can vary between 5-30 minutes. It will interest him again later. Supports exercise in cats with weight problems. Matatabi is much more effective than catnip. It will not harm your cat, there is no overdose of the game. Since it is digestible, it is okay for your cat to eat a small amount, but it is recommended to pay attention to the amount.

Natura Litter Tray Three Part With Separating System PT-300

It is very practical and hygienic in terms of use. There is 1 sieve section where you can clean your cat litter without using a shovel. The other two layers of the product are without holes. The other layer is designed as a sieve. It will be enough to pour your cat's litter into this sieved part, sift it and transfer it to the other chamber. Clean sand will come down through the holes and you will be able to dump the clumps directly into the trash. This product, which provides cat litter cleaning without using a shovel and using hands, is made of top quality material.

Dimensions : 42 x 61.5 x 24cm

42x61,5x24 CM

52984

Natura Dog Trainig Toilet PT-310

This product, which you can use both as a dog toilet and as a training pad compression apparatus, is hygienic thanks to its practical and easy use. It prevents the pad from slipping and collecting. It facilitates in-home training. Provides dryness on paws when used without pads. Easy to clean.

Dimensions : 59 x 39 x 5.5 cm

59x39x5,5 CM

52983

Natura Plastic Scoop PT-360

A food shovel that you can use in the food bucket and sacks.

52973

Natura Plastic Cat Litter Scoop PT-355

The cat sand shovel, which is used to remove the waste in the litter box, keeps the litter clean. Thanks to its holes wide enough for clean and non-sticky sand grains to pass through, it provides easy removal of lumps. Cleaning the sand daily will prolong the life of the sand.

52792
